## Instructions

1. Print out the princess banner. Use card stock for a sturdier banner. Cut out each circle.
2. Cut a length of string or ribbon long enough to feature each piece of your banner, leaving about ten inches on each end to help you tie the banner up. Begin by placing your circles, right to left, (in reverse order) blank side up on a flat surface. Arrange the ribbon so it lies near the top of the circle, then tape the ribbon in place. Continue to do this with all of the circles.

3. When your banner is complete, hang it up for your baby shower celebration.
