

# Let's Learn the 2 x Table

# Let's Learn the 2 x Table

Belle loves to learn new things. This is the 2 x table.

It's easy to learn – just follow the 5 steps as you fill in the 'You try' column.

- 1 **Look** at the number sentence.
- 2 **Say** it out loud.
- 3 **Cover** it with your hand or a piece of paper.
- 4 **Write** the number sentence from memory.
- 5 **Check** your answer.

The 2 x table	You try...
$1 \times 2 = 2$	
$2 \times 2 = 4$	
$3 \times 2 = 6$	
$4 \times 2 = 8$	
$5 \times 2 = 10$	
$6 \times 2 = 12$	
$7 \times 2 = 14$	
$8 \times 2 = 16$	
$9 \times 2 = 18$	
$10 \times 2 = 20$	

Circle only the numbers that are in the 2 x table. Then connect the numbers on the glass to create a wonderful pattern.
